Text: *Algebraic Topology* by Allen Hatcher

Prerequisites: MATH 5703 and graduate standing in mathematics or statistics, or departmental consent.

Goals: This course is a continuation of Topology I. We will study the fundamental group, covering spaces, homology and cohomology theories and Poincaré duality. Select topics in higher homotopy theory will be covered as time permits. This course, together with MATH 5703, will prepare the student to take the topology qualifying exam.

Academic Honesty Policy: As a core part of its mission, the University of Arkansas provides students with the opportunity to further their educational goals through programs of study and research in an environment that promotes freedom of inquiry and academic responsibility. Accomplishing this mission is only possible when intellectual honesty and individual integrity prevail. Each University of Arkansas student is required to be familiar with and abide by the University’s “Academic Integrity Policy” which may be found at <http://honesty.uark.edu>. Students with questions about how these policies apply to a particular course or assignment should immediately contact their instructor.

Homework: Homework is assigned and collected weekly. Problems will be posted on the course webpage. Solutions are to be submitted using \LaTeX .

Course Grade:

- Participation - 20%
